UNDERSTANDING BIKE PARK SIGNAGE

All routes within the bike park are designated by color-coded trail markers at the start of each descent. Trails with an orange oval indicate FREERIDE trails with man-made features and require jumping skills. Work your way up to more advanced trails and features based on your progression, skill and comfort level.

FREERIDE

Freeride trails are machine-cut containing man-made features. Routes are enhanced with dirt jumps, ride-on features, gaps, narrow surfaces, wallrides, berms and other natural or constructed features. All Freeride trails are identified with an orange oval.

	BEGINNER	
	INTERMEDIATE	
	ADVANCED	

TECHNICAL

Technical trails are designed to embrace the rugged shape and terrain of the mountain, utilizing a majority of natural terrain. Routes are typically hand-built and feature organic obstacles and stunts such as rocks, roots, logs, drops, jumps and other natural or constructed features that require technical riding skills. Technical trails are identified by their difficulty symbol. Jumping skills may be required.

THE SMART WAY TO START

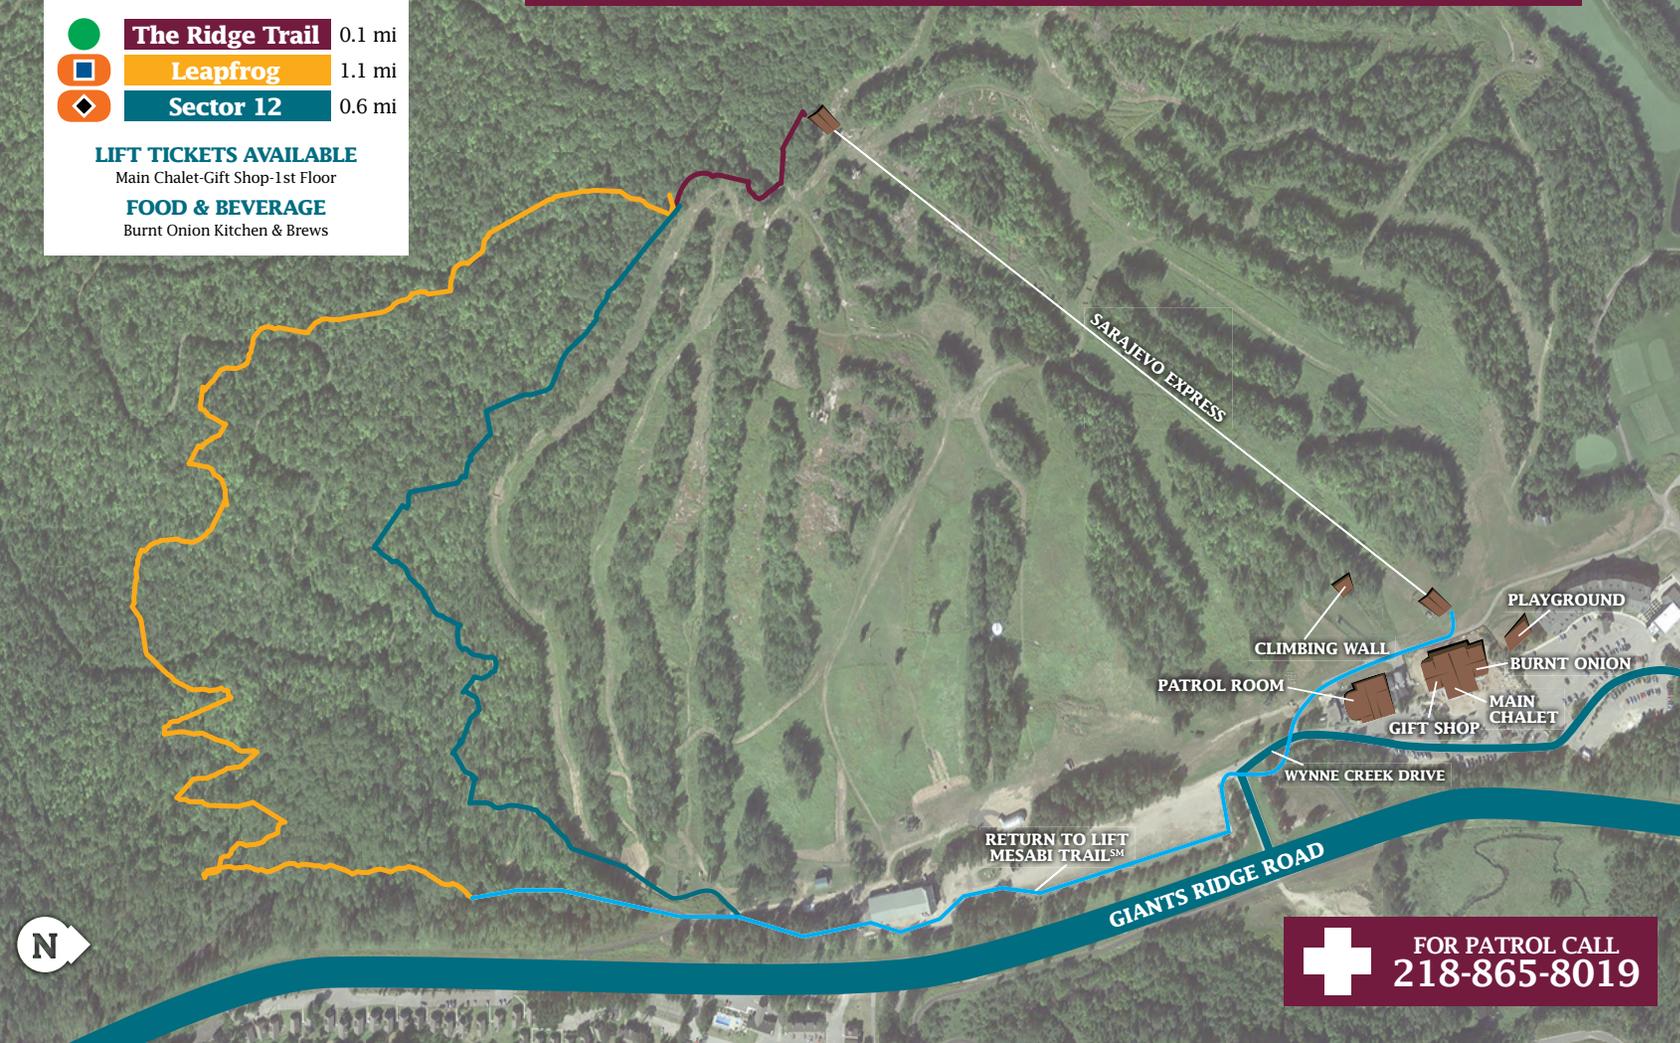

Crashes can happen anytime, especially on your first lap. Ride the trail multiple times to get familiar with the features and equipment you're on so you can confidently push your limits without pushing your threshold. The best way to remember this is with the graphic below. A PRE, RE, and FREE-RIDE mentality should be used by riders of all ages and skill levels.

-  **PRE-RIDE**
Wake up the brain and body. Inspect the trail at low speed.
-  **RE-RIDE**
Lap the trail a few times to get the flow of the features.
-  **FREE-RIDE**
Start small and work your way up to faster speeds and larger features.

MOUNTAIN BIKE RESPONSIBILITY CODE

Mountain biking involves the risk of injury. Common sense and caution can reduce the risk. For your safety and the safety of others, please adhere to the code.

- Ride in control and within your ability level. You must be able to avoid other people or objects.
- Stay off the lifts and trails if your ability is impaired by drugs, alcohol, or fatigue.
- All riders must wear a helmet. A full face helmet, gloves, and body armor are strongly recommended.
- Inspect your bike or have it checked by a qualified bike mechanic before you ride.
- Be sure to have the physical dexterity, ability, and knowledge to safely load, ride, and unload lifts. Ask the lift attendant for assistance if you need it.
- Avoid riders ahead of you. They have the right of way.
- Be aware of changing conditions on trails and features. Inspect features before use and throughout the day.
- Stay on marked trails. Obey all signs and warnings. Do not cut switchbacks. Keep off closed areas.
- Look uphill and yield to other riders when entering a trail or starting downhill.
- Do not stop where you obstruct a trail, or are not visible from above.
- If you are involved in or witness a collision or accident, you must identify yourself to the Bike Patrol.
- Do not feed, provoke, or approach wildlife.
